CHEF CARLOTTA MARTINELLI

BARI | ITALY

Chef Carlotta Martinelli lives in the south of Italy in the town of Bari. She began cooking at a young age with her nonna and fell in love with the rich traditions of pasta-making on the streets of her historic town.

Since then, she graduated top of her class from what's consider the world's most prestigious Italian culinary university - ALMA, the International School of Italian Cuisine located in Parma, Italy. WEIGHING YOUR INGREDIENTS

WEIGHT TO VOLUME CONVERSIONS

Many of our Chef's at **The Chef & The Dish** use weight measurements as their primary unit of measurement. It's standard in a lot of commercial kitchens around the world, especially where accurate and scalable measurements are needed.

You don't have to worry, the team at **The Chef & The Dish** has converted most of these weights into easy to measure volume measurements for you. However, as you further your culinary journey and start reading recipes and cooking dishes from around the world, you may want to buy a weight scale to translate some of the recipes for yourself. Weighing your ingredients remains the most accurate way to measure food.

We've attached a chart of some of the standard weight to volume conversions. This is only a guide, depending on the ingredients and how its packed, the volume can vary greatly.

We encourage everyone to keep thinking about food and cooking, and most importantly, keep exploring.
